Chief Executive(s)
Housing Associations
Glasgow

Dear Chief Executive

Firstly, may I take this opportunity to thank those organisations that were able to join any of our series of MS Teams calls to update on our emerging plans including how we plan to deal with bulk waste.

As you know, our bulk waste collection service was reintroduced on a request-only basis on 10th December 2020 and at that time core bulk (pavement) uplifts were ceased. We have received over 43,000 requests for collection since this date which has assisted residents to reduce the number of items they stored during the temporary suspension.

I can now advise that following the decision made by the Council in February last year, we will be introducing charging for household bulk waste collections from **5 July 2021**.

This decision brings Glasgow into line with the vast majority of Scottish local authorities, where charging for uplifting bulky items is a standard feature of their waste management services.

Requiring householders to pay for large items to be collected is also consistent with the Council's new Resource and Recycling Strategy 2020-30 and 'empowering Glasgow to become a zero-waste city'.

Charging aims to change the way citizens think about resources. By assigning value to bulky items we can encourage residents to reduce the amount of waste they produce or find other ways for items to be reused where possible. Extending the useful life of bulky items will help reduce Glasgow's carbon footprint and help support the city's aim of becoming carbon neutral by 2030.

[You can find out more about the Resource and Recycling Strategy 2020-30 by following this link.](#)

Full details of how the service will operate and the charges applied will be available on our website from today at www.glasgow.gov.uk/bulkywaste, however, for assistance a summary of key details are provided below.

I would very much appreciate if you could communicate this information to your tenants in your newsletters etc.

- We are introducing charges for collection of household bulky waste from **5 July 2021**.
- Residents will be able to place requests online by first registering with “myaccount”. Full details and guidance is at www.glasgow.gov.uk/bulkywaste
- We will provide a limited phone line initially for 3 days a week for residents who cannot access the internet.
- Payment can be made by credit or debit card on our secure site and will be taken upfront.
- Residents will be provided with terms and conditions which provide information on their rights and obligations.
- Charges are:
 - £35 for up to 10 standard items (£35 for each number up to 10 thereafter)
 - £35 for each large electrical item – these will be collected separately for recycling
 - Special large items such as marble fireplaces, sheds, cast iron baths will continue to be charged on a half-hourly basis. A full list is available on our website.
- Residents will first be issued an acknowledgement and will then receive a follow up notification with a Collection Date - we aim to collect items within 28 days.
- Where we have been unable to collect for operational reasons, we will arrange a new Collection Date.
- More information including full terms and conditions, FAQs, lists of items we collect, how and where to present items, is on our website www.glasgow.gov.uk/bulkywaste
- Residents can continue to visit our Household Waste Recycling Centres, and if items are in good condition, residents can also use [Zero Waste Scotland's National Re-use Tool](https://wasteless.zerowastescotland.org.uk/articles/reuse-tool) and donate these items to charity. The link is here:
<https://wasteless.zerowastescotland.org.uk/articles/reuse-tool>

I would also like to advise that we will be ceasing our remaining free bulk chamber clearance service from **9 August 2021**.

If your organisation is unable to make alternative arrangements in this timeframe and would like to discuss this with us, please email commercialservices@glasgow.gov.uk putting “Bulk Chamber clearance” in the subject line by **12 July 2021**.

For those Housing Associations that have introduced a backcourt maintenance service for the removal of their tenants’ bulk waste I am pleased to reconfirm that there will be no charge for disposal of this household waste until the end of March 2022.

Housing Associations will still be able to drop off waste at our Household Waste Recycling Centres free of charge. I am hopeful that this will encourage participating organisations to continue to offer this service and that others will assess if they are able to introduce a similar service.

I would however like to clarify the items that are acceptable under this arrangement:

Free of Charge Disposal

- Only bulky household items that have been placed out for disposal by your tenants will be accepted free of charge. An example list is attached at the bottom of this letter.

Chargeable waste

- Bulky Items your organisation has cleared from households as part of any refurbishment scheme, or any other type of waste such as garden waste & waste cleared as part of your facilities maintenance programme are still subject to charge.
- Please note that all loads will be inspected on arrival at our Transfer stations and any loads containing the items above will incur charges against the full load.

Should you require any further information please do not hesitate to contact the following Neighbourhood Liaison Managers who would be happy to assist with any further enquiries.
